

CEDRIC CONCON

Junior Full-Stack Developer

Quezon City, Philippines | +63 938 829 5954 | conconcedric@gmail.com | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

Open to Remote Opportunities — Philippines

PROFESSIONAL PROFILE

Junior Full-Stack Developer with hands-on experience building responsive web applications using React, Tailwind CSS, Supabase, and PostgreSQL. Independently scoped, built, and deployed a full-stack car catalogue with authentication, CRUD operations, and an admin dashboard — from initial planning through production deployment. Passionate about clean UI, practical problem-solving, and shipping working code. Open to remote opportunities in the Philippines.

CORE COMPETENCIES

- Responsive web development and mobile-first UI implementation
- React component development and JavaScript application logic
- Supabase integration, Supabase Auth, and PostgreSQL-backed data workflows
- Git/GitHub version control and Vercel deployment
- Debugging, practical problem-solving, and iterative improvement

TECHNICAL SKILLS

- **Programming Language:** JavaScript
- **Markup / Styling:** HTML, CSS
- **Frontend:** React, Tailwind CSS
- **Backend / Data:** Supabase, Supabase Auth, PostgreSQL
- **Tools / Platforms:** Git, GitHub, Vercel

SELECTED PROJECT

Car Catalogue — Full-Stack Web Application | car-catalogue-liard.vercel.app

- **Purpose:** A web-based car catalogue where visitors can view vehicle information, details, and prices.
- **Ownership:** Independently scoped, built, and deployed the application end-to-end, including researching and selecting the Supabase/PostgreSQL stack to fit the project's data and auth requirements.
- **Frontend:** React + Tailwind CSS with responsive layouts and mobile navigation.
- **Backend / Data:** Supabase with PostgreSQL for application data management.
- **Admin Dashboard:** Built with Supabase Auth, enabling secure CRUD operations (Add, Edit, Delete) on the car database.
- **Deployment:** Vercel.
- **Problem Solved:** Converted desktop navigation into a burger-menu experience on smaller screens for improved mobile usability, and added price sorting (Low–High / High–Low) on the inventory page.

EDUCATION

Bestlink College of the Philippines | Information Technology (College)

Paused after 1st semester of 1st year (2025) due to financial constraints; continuing skill development through independent, project-based learning while seeking entry-level opportunities.

Bestlink College of the Philippines | ICT, Senior High School | 2023–2025

ADDITIONAL INFORMATION

- Languages: Filipino (Native), English (Working proficiency).

CAREER GOAL

Seeking an entry-level Full-Stack Developer opportunity where I can contribute to real-world projects, apply my React and Supabase skills, and continue growing through professional software development.
